B. The perimeter fence paralleling the water's edge for waterfront lots shall be set back five (5) feet from the bulkhead or water's edge and shall not exceed four (4) feet in height. The side yard fence perpendicular to the water's edge shall be four (4) feet in height thirty-five (35) feet from the bulkhead toward the front of the Lot and shall not exceed six (6) feet in height from that point to the front building setback line. If necessary, fence designs will step down slopes with a four (4) foot minimum height and a six (6) foot maximum height. The framework of the fence, including the posts, shall face the inside of the lot.

4.22 Basketball Goals. No basketball goal shall be installed on or beyond the front facade of any residence or within the front yard setback area. On corner Lots, a basketball goal may be installed beyond the side street facade of the residence, but not within the sideyard setback area.

4.23 Drainage.

A. No Owner shall in any way interfere with or alter the established drainage pattern of water over his Lot or interfere with drainage over and through any drainage servitude on his Lot. For purposes of these restrictions, the "established drainage pattern" is defined as the drainage pattern which is designed to occur at the time at the overall filling and grading of the Subdivision and the Lots in the Subdivision have been completed in accordance with the requirements of these restrictions and in accordance with the Paving and Drainage Plan prepared by Foster Engineering, Inc., and the Site Grading Plan prepared by Foster Engineering, Inc., which plans have been submitted by Vela, L.L.C. to St. Tammany Parish Planning Commission. Copies of said plans are also filed in the Official Records of St. Tammany Parish, Louisiana and with the ARC.

B. In order to achieve the established drainage pattern, each Owner shall be responsible to grade, elevate and fill his Lot in accordance with and as required by these restrictions. Each Owner shall also be responsible to maintain the elevation of his Lot so that water shall drain over and through his Lot in accordance with the established drainage pattern for his Lot as provided herein. In no case shall an Owner maintain a slope that exceeds a 4:1 gradient. Steep side and rear yard slopes that project a "House on a Hill" look are prohibited.

4.24 Greenbelt Area. The front setback of the Lots as stated in this Supplementary Declaration and shown on the subdivision plan is twenty-five (25) feet. The first fifteen (15) feet of the setback area of each Lot is hereby designated as a greenbelt area. Within this greenbelt area, the Owner must plant a minimum of three (3) class A trees chosen from those listed in the Architectural Guidelines. The Owner and all subsequent Owners must maintain these trees and replace any diseased, damaged, dying or dead trees so as to always have three (3) Class A trees on the Lot. These trees are to be planted in accordance with the rules and regulations promulgated by the Architectural Review Committee.

4.25 Restrictions for Waterfront Lots. Any Lot which shall abut upon any lake, canal or other waterway (hereinafter collectively referred to as "Waterways") shall be subject to the following restrictions:

A. No dock, bulkhead, boathouse, gazebo or other structure or obstruction shall be built or maintained upon any Lot abutting a Waterway or into or upon any Waterway on the Lot, or adjoining thereto, without the prior written approval of the plans and designs by the ARC. Such structures built by the Owner shall be maintained at his sole expense. Notwithstanding any of the above contained herein to the contrary, no hanging of tires on any dock, bulkhead, boathouse, gazebo or other obstruction will be permitted.

B. No hoists, launching facilities or any similar type of structure(s) or equipment shall be installed. The owner must submit to the ARC a plan stamped by a licensed engineer stating that said waterway structures will not create a failure of the bulkhead or affect the property or any other property, constructed or maintained upon any Lot. Further, no boat trailer shall be stored on any Lot except in a permanently enclosed structure.

C. The Owner shall construct a bulkhead on his Lot in accordance with the specifications attached hereto as Exhibit "C" and made a part hereof. Construction of the bulkhead

shall commence with construction of the house on the Lot or Unit. The location of the bulkhead line shall be determined by Vela, L.L.C. and shown on the official plan or plans of subdivision of Phase 4 on file in the office of the Clerk of Court with the Parish of St. Tammany.

D. Declarant, its successors or assigns shall not be responsible for the erosion of any Lots caused by the waters of any lake, waterways, canal or drainage servitude area.

E. Any dock or boathouse or other waterway structures constructed in said Waterway shall not extend more than fifteen (15') feet from the face of the bulkhead into the Waterway.

4.26 Swimming Pools.

A. Swimming pools, patios and decks shall be located on the rear portion of the Lot and/or Unit and shall not be visible from any street within the Subdivision. Notwithstanding the provision of Article IV, Section 4.1, swimming pools, shall not be nearer than twenty (20') feet to the bulkhead line and five (5') feet from the side lot line.

B. Swimming pools, patios, gazebos and decks shall be constructed in the ground and shall be at normal ground level. No raised or above-ground pools shall be allowed. All plans and specifications for swimming pools, patios, gazebos and decks shall be submitted to the ARC for review and approval prior to construction in accordance with the rules and regulations of the ARC, and construction shall not commence until said plans and specifications have been approved by the ARC.
