For the purposes of this Declaration, eaves, steps and decks shall not be considered as part of a building; provided, however, that the foregoing shall not be constructed to permit any portion of a building on a Lot to encroach on another Lot, unless the Lot owners have executed and recorded mutual cross easements. For the purposes of this Declaration, the front line of each Lot shall coincide with and be the property line having the smallest or shortest dimension abutting a street.

4.2 Construction. The main building shall be constructed in accordance with the approved plans by the Architectural Review Committee. No other buildings are allowed. For lots on which boathouses are constructed, the buildings shall be constructed with a party wall between the structures. The roof may not overhang onto adjoining lots with common party walls unless the Lot owners have executed and recorded mutual cross easements. No other buildings or structures are allowed on these lots.

A. The main building on any Lot in the Subdivision shall be constructed or assembled on the Lot and shall not be moved thereon from elsewhere.

B. Construction must be completed within one (1) year from the date of the commencement of construction, unless said construction has been halted by an Act of God or force majeure such as a hurricane, tornado, or flood. Ordinary rainfall delays shall not be an exemption from this provision. If the Owner fails to complete construction within one (1) year from the date of commencement of construction, then the Owner shall be assessed a special assessment by the Board for violating this provision, which assessment, if not paid by the Owner, shall become a lien in accordance with the terms and provisions of the Declaration, enforceable by the Association in accordance with the terms and provisions of the Declaration.

C. For all lots, except Boathouse Lots or Units, no improvements shall be constructed within the last 15 feet of the bulkhead line. Notwithstanding the above, for lots where boathouses are constructed, the building may be constructed into or over the water outward from the bulkhead a maximum of sixty (60') feet from the bulkhead line. The bulkhead can also be constructed under the boathouse. Only landscaping previously approved by the Architectural Review Committee shall be allowed in this area.

4.3 Residence Buildings.

A. No Lot and/or Unit in the Subdivision shall be used for any purpose other than residential. No building shall be erected, constructed, reconstructed, altered, placed or permitted to remain on any Lot other than one single family dwelling, excepting as hereinafter provided, not exceeding three (3) levels in cross section, and a private garage for a minimum of two (2) cars and other structurally connected or architecturally related accessory structures. For boathouses, garages must be built and located within the building and not built adjoining or adjacent to the boathouse structure. Garages may be connected to a Unit by a roof that matches the Unit's roof in pitch and material. No Owner or other occupant shall use or occupy his Lot and/or Unit, or permit the same or any part thereof to be used or occupied, for any purpose other than as a private single family residence for the Owner or his tenant and their families. C. The floor area of any single family residential dwelling, exclusive of eaves, steps, open porches and garage shall be not less than one thousand square feet (1,000') on any Lot located in the Subdivision, provided, however that in no event shall any multi-story residential dwelling have a ground floor area of less than six hundred (600') square feet. For Boathouse Lots or Units, the floor area on the first level shall only be used for a garage or storage space; living areas are not allowed. The second and third floor areas are to be used for living space in the Boathouse Lots or Units. The height of a boathouse structure or improvement built on a Boathouse Lot or Unit cannot exceed the maximum height allowed or authorized by the Parish of St. Tammany.

D. It is expressly stipulated that the use of or for a public boarding house, lodging house, sanatorium, hospital, asylum or institution of any kindred nature, or anything which is or may become a nuisance to the neighborhood is hereby expressly excluded from the definition of "residential" as used herein, but "residential purposes" shall be deemed to indicate and include an appurtenant private garage building, servant's quarters or other appurtenant out-building or structures.

E. by the ARC shall be placed or maintained on any Lot in the Subdivision either temporarily or permanently. If a trailer, commercial vehicle, boat, jet ski or other water craft, camper or motor home is stored in an enclosed garage, the Owner or Occupant is not allowed to park motor vehicles in the parking areas of the lots in the subdivision in order to provide space for parking the above inside the enclosed garage. As further provided in Subsection 4.5, no permanent parking is allowed in the parking area of the Lots. No dwelling on any Lot in the Subdivision shall be occupied while in the course of construction nor until made to comply with all conditions set forth herein and all applicable statutes, laws, codes, regulations and ordinances, nor shall any trailer, commercial vehicle, boat, jet ski or other water craft, camper, or motor home be parked on any Lot except in the enclosed garage described above. Notwithstanding any provisions contained herein to the contrary, it shall be expressly permissible for Declarant to maintain, from time to time during the Construction and Sale Period, upon such portion of the Property as Declarant deems necessary, such facilities as in the sole opinion of the Declarant may be reasonably required, convenient or incidental to the development and/or construction of any Improvements and/or sale of the Lots, this shall include, but shall not be limited to, storage areas, construction yards, model homes and sales centers. The utilization of any portion of any Lot and/or Unit for performing repair work on any vehicle is expressly prohibited. No open parking space, driveway, or street area shall be used for storage of boats, trailers, jet skis, or

4.13 Sightlines. No fence, wall, hedge or shrub planting which obstructs sightlines at elevations between two (2') and six (6') feet above the roadways shall be placed or permitted to remain on any corner Lot within the triangular area formed by the street property lines and a line connecting them at points fifteen (15') feet from the intersection of the street lines, or in the case of a rounded property corner for the intersection of the street property lines extended. The same sightline limitations shall apply on any Lot within ten (10') feet from the intersection of a street property line with the edge of a driveway or alley pavement. No tree shall be permitted to remain within such distance of such intersections unless the foliage line is maintained at sufficient height to prevent obstruction of such sightlines.

4.14 Garbage and Refuse Disposal. All Lots and/or Units shall at all times be kept in a healthful, sanitary and attractive condition. No Lot shall be used or maintained

as a dumping ground for garbage, trash, junk, debris, grass cutting and lawn debris, seafood debris such as crab shells, shrimp shells, crawfish heads/shells, or other waste matter. All garbage, trash, junk, debris, grass cutting and lawn debris, seafood debris such as crab shells, shrimp shells, crawfish heads/shells, or other waste matter shall be kept in adequate containers constructed of metal, plastic or masonry materials, with tightly-fitting lids, which shall be maintained in a clean and sanitary condition and screened from public view. No Lot or Unit shall be used for open storage of any materials whatsoever, except that new building materials used in the construction of Improvements erected on any Lot may be placed upon such Lot at the time construction is commenced and may be maintained thereon for a reasonable time, so long as the construction progresses without unreasonable delay, until completion of the Improvements, after which these materials shall either immediately be removed from the Lot and/or Unit, or stored in a suitable enclosure on the Lot and/or Unit. No garbage, trash, junk, debris, grass cutting and lawn debris, seafood debris such as crab shells, shrimp shells, crawfish heads/shells, or other waste matter of any kind shall be burned on any Lot.

4.15 Lot Maintenance. The Owners of all Lots and/or Units shall at all times keep all weeds, grass and shrubbery thereon cut in a sanitary, healthful and attractive manner and shall not allow weeds, grass or underbrush to grow up and remain on their Lots. In the event that the Owners fail to perform this obligation, then the Declarant or the Board shall have the authority to have the Lots and/or Units properly cut or cleaned and shall be paid a reasonable charge for such services by the Owner of the Lot and/or Unit immediately upon the request therefor. In the event the Owner of the Lot and/or Unit fails to pay this charge, then the charge shall become a special assessment, which assessment, if not paid by the Owner, shall become a lien in accordance with the terms and provisions of the Declaration, enforceable by the Association in accordance with the terms and provisions of the Declaration.

4.16 Driveways, Walkways and Parking Areas, Common Easement for Use.

A. Each Lot and/or Unit must be accessible to an adjoining street by a driveway suitable for such purposes before the residential structure located on any such Lot may be occupied or used.

B. Location of the driveway on the Lot must not interfere with the location of electrical transformers within servitudes along the various property lines of the Lot. No driveway shall be constructed without the prior written approval of the ARC as to its location, which said location shall not be located nearer than three (3') feet to any side Lot line and ten (10') feet parallel to the front Lot line.

C. Driveways shall be connected to a street and shall be constructed at a minimum of concrete or material approved by the Architectural Review Committee. Concrete driveways shall have expansion joints not more than twenty (20') feet apart, with one joint at the back of the street curb. The driveway shall be at least four (4") inches thick and shall be poured against a horizontal form board at its end toward the street curb.

D. Walkways on the Lot going from the street curb to the single-family dwelling shall have a minimum width of three (3') feet and shall be constructed at a minimum of concrete or a material approved by the ARC. The Owner shall at all times maintain and keep said walkways in good condition and repair to the quality and type of the original construction and shall indemnify and hold harmless the Association for any causes of action, damages, claims, liability or monies spent, including attorney's fees, court costs and costs of defense, arising out of or in any way connected with the failure of Owner to maintain the said walkways in good condition and repair as required herein.

E. Common parking area - Cross Easement for Use. There is hereby granted and established by designation in favor of each and every Lot and each and every present and future Owner of a Lot in the Subdivision, their heirs and assigns, a non-exclusive easement and servitude across the portion of the Lots designated in the Subdivision as driveways and parking areas for ingress and egress and/or parking of motor vehicles for the

comfort, convenience and use by the Owners' of the Lots containing said driveway and parking areas. No Owners may restrict or prohibit the access or parking areas on his or her Lot. The servitude in favor of each such Lot or grantee shall be a separate and distinct servitude. Said servitude in favor of each Lot or grantee shall be a predial servitude which shall be exercisable by the Owner of such Lot or grantee and his agents, employees, contractors, licensees, invitees, and guests. Each and every such servitude of passage and of ingress and egress shall permit and allow the grantee thereof (i.e., the Lot, the Owner of the Lot) and his agents, employees, contractors, licensees, invitees and guests, the non-exclusive use and right of passage, together with others, of said driveways and parking areas for access to and ingress to and egress from every Lot and/or Common Area, which said use shall be determined by law, these Subdivision restrictions, and rules and regulations as promulgated by the Association from time to time. In no event shall any such Lot or Owner of a Lot or grantee be deprived of egress from or ingress to his Lot over the said driveways and parking areas in the Subdivision or the use of said driveways or parking areas as allowed by the subdivision restrictions, and the rules and regulations as promulgated by the Association from time to time. The aforesaid servitudes established in this section shall not be subject to termination or amendment by or upon any termination or amendment of this Declaration. The servitudes hereinabove established in this section shall encumber and include, without limitation, all of the Lots as shown on the Plan of Subdivision. Any person who shall cease to be a Lot Owner and Association member shall lose his servitude rights under this section.

It is expressly provided that Declarant, its successors or assigns, shall have the right to grant additional servitudes for passage, ingress, egress, use utilities and/or other purposes in, on, over, under and across the said driveways and parking areas located in the Subdivision and/or shown on the Plan of Subdivision, to such entities, properties and/or persons as it shall determine, which such grantees shall have the right to use and enjoy the said driveways and parking areas in addition to and together with the grantees of the servitudes hereinabove

established and without hindrance from said grantees, regardless of when their rights shall be recorded. In addition, Declarant reserves the right for itself, its successors and assigns, to use and enjoy the said driveways and parking areas in addition to and together with all of said grantees. It is understood that other servitudes, such as servitudes for utilities, have been granted which affect the said driveways and parking areas. The grantees of the servitudes hereinabove established shall cooperate with such other servitude grantees in the use and enjoyment of the servitude areas, and driveways and parking areas.

An Owner of a Lot in the Subdivision and his respective agents, employees, contractors, licensees, invitees and guests shall at no time obstruct or in any way interfere with free passage on, over or across the said driveways and parking areas.

However, the Declarant, or its successors and assigns, the Association, or its successors and assigns, and/or any utility company, entity or governmental agency in carrying out its rights, duties or obligations to install, maintain, repair or replace the improved streets, driveways and parking areas, or any utility within the Subdivision or streets, may reasonably temporarily obstruct or interfere with the said use of passage, and of ingress or egress, or use, on, over or across said driveways and parking areas.

4.17 Mail Receptacles. Mail receptacles designated by the ARC shall be installed at the front of the Lot. The location and type of receptacles are to be approved by the ARC prior to installation by the builder and/or Owner.

4.18 Fences. Chain link fencing, gates, enclosures, or other type of chain link material is strictly prohibited anywhere on the lot or property.

A. Only aluminum fences no taller than 4' high and approved by the ARC may be installed.

B. A privacy wall of stucco finish to coordinate with the residential structure may be installed. For those Lots or Units that are not Boathouse Lots or Units the privacy wall shall not be installed within the last 15' to the bulk head line.

C. The courtyard area between the garage and the Unit may be fenced by the Owner. The fencing must be approved by the ARC prior to installation.

4.20 Drainage.

A. No Owner shall in any way interfere with or alter the established drainage pattern of water over his Lot or interfere with drainage over and through any drainage servitude on his Lot. For purposes of these restrictions, the "established drainage pattern" is defined as the drainage pattern which is designed to occur at the time at the overall filling and grading of the Subdivision and the Lots in the Subdivision have been completed in accordance with the requirements of these restrictions and in accordance with the Master Paving and Drainage Plan prepared by J.V. Burkes & Associates, Inc., and the Site Grading Plan prepared by J.V. Burkes & Associates, Inc., which plans have been submitted by Developer to the St. Tammany Parish Planning Commission. Copies of said plans are also filed in the Official Records of St. Tammany Parish, Louisiana and with the ARC.

B. In order to achieve the established drainage pattern, each Owner shall be responsible to grade, elevate and fill his Lot in accordance with and as required by these restrictions and the Site Grading Plan. Each Owner shall also be responsible to maintain the elevation of his Lot so that water shall drain over and through his Lot in accordance with the established drainage pattern for his Lot as provided herein and as shown on said Site Grading Plan. In no case shall an Owner maintain a slope that exceeds a 4:1 gradient. Steep side and rear yard slopes that project a "House on a Hill" look are prohibited.

4.21 Restrictions for Waterfront Lots. Any Lot which shall abut upon any lake, canal or other waterway (hereinafter collectively referred to as "Waterways") shall be subject to the following additional restrictions:

A. Bulkheads, piers or docks may not be built upon any Lot without the prior written approval of the plans and designs by the ARC. Bulkheads must be built along the rear line established by the ARC or the Association. Bulkheads must line up with the bulkheads on the existing lots in the subdivision and may not extend beyond the existing line or neighboring properties into the water. The bulkhead line must form a uniform line. Such structures built by the Owner shall be maintained at his sole expense. For those Lots or Units that are not Boathouse Lots or Units, no other structure or obstruction, including but not limited to a wharf, boathouse, or gazebo shall be built upon any Lot abutting a Waterway or into or upon any Waterway on the Lot. Notwithstanding any of the above contained herein to the contrary, for those Lots or Units that are Boathouse Lots or Units, boathouse buildings may be constructed into the water outward from the bulkhead a maximum of sixty (60') feet. The hanging of tires on any pier, bulkhead, or dock is prohibited. The following maximum extensions shall apply to the construction of docks and piers:

On zero lot line, patio home lots, or lots with common walls, docks and piers may be built perpendicular to the bulkhead, but may not extend into the water more than forty five (45') feet outward from the bulkhead. Docks shall have a maximum width of twelve (12') feet. Docks may be covered for the entire width of the dock. The wharfage area immediately adjacent to the docks may be covered, up to a maximum width of fourteen (14') feet. The roof material and pitch of a covered dock must be the same as the main structure on the lot. Flat roofs are prohibited. When docks are covered, the following lengths shall apply: The piers on docks shall be constructed one (1') foot from the property corner. The width of the pier may be up to a maximum of twelve (12') feet. The pier may extend a maximum of twelve (12') feet outward from the bulkhead. At this point, the pier can continue outward a

maximum length of four (4') feet until it reaches a maximum length from the bulkhead of forth-five (45') feet.

B. The Lots abutting the Waterways shall maintain a marina atmosphere. Each Unit must maintain the bulkhead, pier and any walkways behind the Lot or Unit. Parallel docks and any attachments to the bulkhead, including parallel mooring of vessels is **strictly prohibited**.

C. No hoists, launching facilities, or covered boat slips, or any similar type of structure(s) or equipment shall be installed without the prior written approval of the plans and designs by the ARC. The owner must submit to the ARC a plan stamped by a licensed engineer stating that said structures will not create a failure of the bulkhead or affect the property or any other property, constructed or maintained upon any Lot.

C. The perimeter fence paralleling the water's edge for waterfront lots shall be set back five (5') feet from the bulkhead line and shall not exceed four (4') feet in height. The side yard fence perpendicular to the bulkhead line shall be a minimum of four (4') feet in height. The framework of the fence, including the posts, shall face the inside of the lot.

D. The Owner shall construct a bulkhead on his Lot in accordance with the specifications attached hereto as Exhibit "C" and made a part hereof. Construction of the bulkhead shall commence with construction of the house on the Lot or Unit. Boardwalks paralleling the bulkhead are optional.

E. For those Lots or Units that are not Boathouse Lots or Units, interior sand beaches, whether natural or artificial, are not allowed on the lot within the bulkheaded area. Beaches are allowed on that portion of the lot on the outside of the bulkhead line (adjacent to the water). For those Lots or Units that are not Boathouse Lots or Units, the lot owner cannot excavate into the lot to create a shorter bulkhead line than the line established in the subdivision and a beach outside the bulkhead line. For Boathouse Lots or Units, the

owner can excavate up to a maximum of six (6') feet into the Lot or Unit with the prior written approval of the ARC.

F. Declarant, its successors or assigns shall not be responsible for the erosion of any Lots caused by the waters of any lake, waterways, canal or drainage servitude area.

#### 4.22 Swimming Pools.

A. Swimming pools, patios and decks shall be located on the rear portion of the Lot and/or Unit and shall not be visible from any street within the Subdivision. Notwithstanding the provision of Article IV, Section 4.1, swimming pools, patios, gazebos and decks shall not be nearer than fifteen (15') feet to the bulkhead line and five (5') feet from the side lot line.

B. Swimming pools, patios, gazebos and decks shall be constructed in the ground and shall be at normal ground level. No above-ground pools shall be allowed. All plans and specifications for swimming pools, patios, gazebos and decks shall be submitted to the ARC for review and approval prior to construction in accordance with the rules and regulations of the ARC, and construction shall not commence until said plans and specifications have been approved by the ARC.

C. A fence of a design approved by the ARC, and in compliance with St. Tammany Parish regulations, shall completely enclose any swimming pool.

### **ARTICLE V** **WATERWAYS RESTRICTIONS**
